

Solucion tarea 2-4

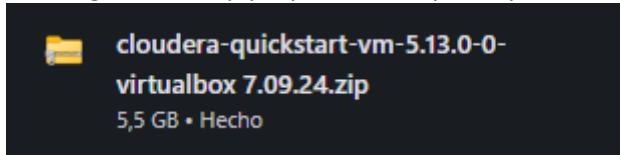

1. Descargamos VirtualBox

Esta es la interfaz gráfica de VB una vez instalado (ya lo tenía instalado previamente). Ninguna de estas máquinas es la que se va a utilizar en esta práctica.

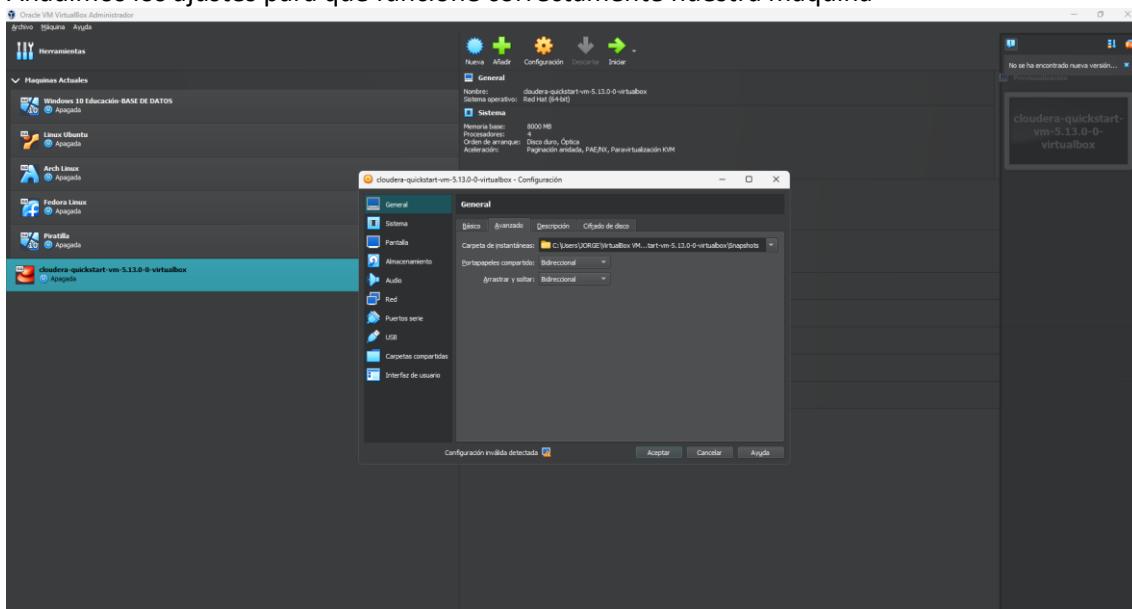

2. Descargamos la siguiente máquina virtual

Descargamos el .zip proporcionado por el profesor

3. Configuramos la máquina virtual

Añadimos los ajustes para que funcione correctamente nuestra máquina

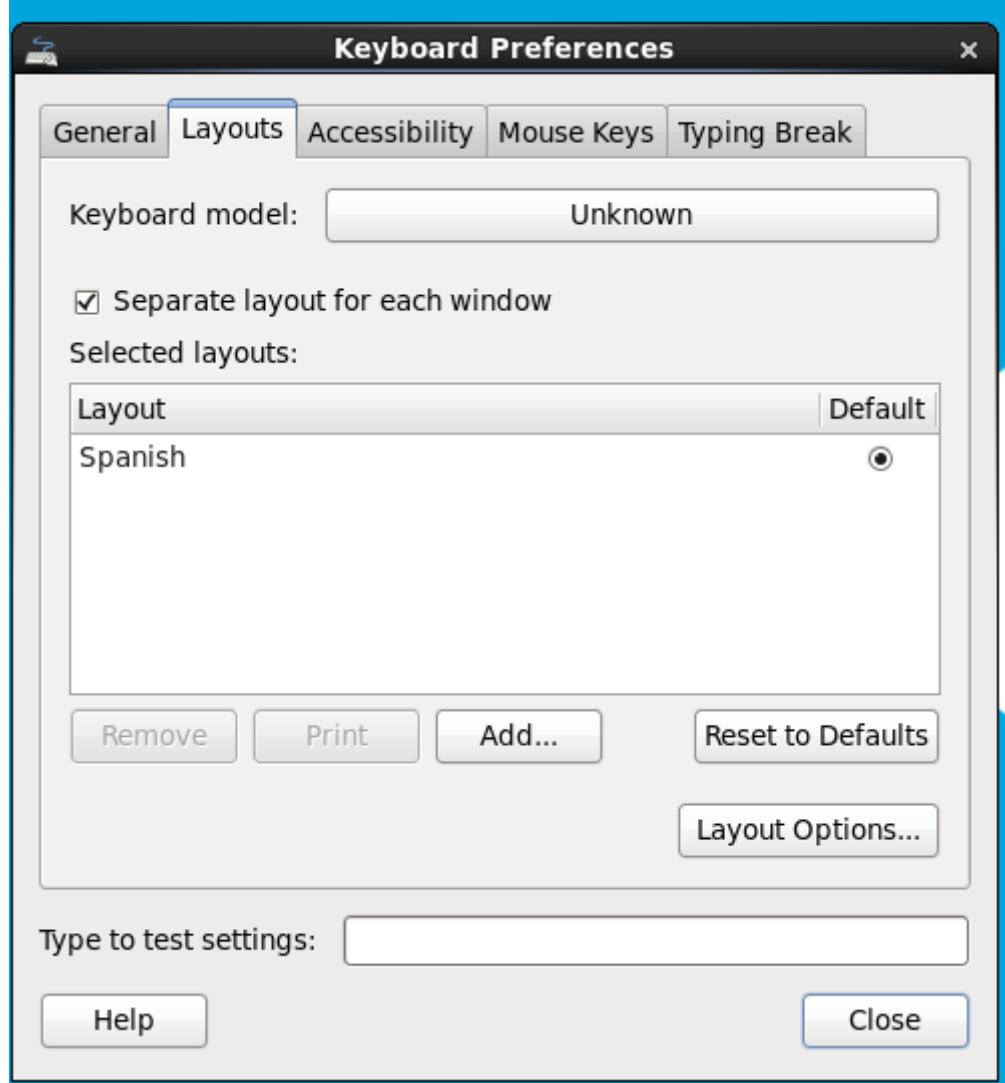

4. Arranco la máquina virtual

4.1 Borramos el enlace

4.2 Entremos en System/Preferences y cambiamos el idioma del teclado

4.3 Entro el navegador e inicio sesión en Hue

The image shows two screenshots of the Hue interface. The top screenshot is the 'Welcome to Hue' login page. It features the Hue logo and the tagline 'Query. Explore. Repeat.' Below the logo are two input fields: one containing 'cloudera' and another containing '.....'. A blue 'Sign In' button is centered below the fields. A note at the bottom states: 'Hue and the Hue logo are trademarks of Cloudera, Inc.' The bottom screenshot shows the 'Hue - Editor' interface. It has a toolbar with various icons, a left sidebar showing 'Impala' and 'Databases', and a main query editor area. A modal window titled 'Welcome to Hue! 4!' is open, displaying a message: 'We want to introduce you to the new interface. It takes less than a minute. Ready?' with a 'Next' button. The URL in the browser bar is 'quickstart.cloudera:8888/hueditor?type=impala'.
